TERRA COTTA and SCAGLIOLA manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs, and sold at No. 1 Wharf, Pryed-street, Paddington.

Vases, friezes, friezes, capitals, coats of arms, chimney shafts, trusses, flower pots, and all ornamental work required to stand heat and frost without cracking or changing colour, may be had at nearly the same cost as casting in cement.

Terra Cotta is more durable than iron, granite, marble, or stone, and may be had of black, red, and light cream colours of every shade. It can be more undercut and delicately wrought than either stone or marble, and architects can have their own designs modelled and fired in this material (without incurring the chance of copying) fresh from the hands of the artist.

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Medway. Grey and Chalk Lime supplied to the freight, direct from the kilns, or fresh from their wharfs, viz. Canal-road, Kingsland-road; Queen's Wharf, Great Chamberlain-street, Hampstead; or King's Wharf, New Wharf-road, Battle-bridge. N.B. Lathe, Tiles, Chimney-pots, Plaster, Hair, Welsh Goods, &c. &c. &c.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for covering of stucco than any other lime or cements. The best for mortar is burnt on an improved principle, leaving scarcely any ears. The satisfaction constantly expressed by Engineers, Architects and Contractors, of the above, is its best recommendation.

Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ASHTON, and LIAS CEMENTS of the best quality.

SECONDS, PAVIORS', STOCKS, and other Bricks.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. MEARES and SON, Modellers, &c. 63, Parker-street, Drury-lane. A splendid assortment of Capitals, Friezes, and other Terra Cotta Ornaments, Balusters, Trusses, &c.; Estimates and other Chimney Shafts.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufactory of this very useful material, confidently refer it to the notice of the Trade and the Public generally, as possessing advantages over the generality of Stucco or Whole Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—Is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirable for Railway Stations, Union Workhouses, Hospitals, Schools, Prisons, &c. One coat will cover three coats. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has the sensible qualities: may be painted; is preserved in a few days; never blisters, cracks, or vegetates; becomes harder as it attains years; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prices, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse, 28, Steed-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppey Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used as the great Cement at Chatham; in a similar work at Ramsgate; and at Dover Pier, where it is used in the masonry, and also in the centre pier of the Tubular Bridge on the Menai Straits in which Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and sea shingle. The work extends 300 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction has been repeatedly washed away. The superiorness of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or at Wm. Medina Mill, Newport, Isle of Wight.

Agent for Southampton, R. L. FLUDER, American Wharf.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY NOT WEIGHT. BRING THE STANDARD. CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality, a consideration never before attached to Portland Cement. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharf in London, 4, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT is the cheapest, because the best Cement for external use. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brick-work, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Send-street, Liverpool.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Hill-hall, Dagenham, St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Medina Cements, French and English Plaster, &c.

PATENT PORTLAND and ROMAN CEMENTS.—WINKFIELD, SELL, and CO. of East Greenwich, Kent, having now completed some handy contracts, are prepared to execute orders to any extent for either of the above Cements. Many highly respectable references can be given where their cements have been successfully used. Orders received and executed either from their works at Greenwich, or their wharfs Grosvenor Wharf, Chelsea, or 84 Wharf, Harrow-road, Paddington.—Agent at Southampton, Mr. GEORGE SHARP, Union Wharf.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture they made during the present year will ensure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall. March, 1858.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement that requires no colouring. Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster; and Send-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal use.—These well known hard stuccoes dry quickly, and can be painted and papered within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.

Light and Dark equal to any made.

Also, Manufacturers of PLASTER, MASTIC, Importers of MANNEH and PUZZOLANA.

Dealers in Stains, Flints, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS. Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.

Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.
